Letter of Appreciation

Dear Dr. Gotfryd,

We would like to express to you our sincere gratitude and appreciation for all the help Maxi Mind has given our children this year.

Our children were excited about participating in your program and looked forward to that time everyday. They loved their Maxi Mind coaches and came home talking about how much fun they had with them.

Our children found the exercises challenging and interesting and were motivated to do their best. After we started the sessions, we found that each child began to improve in the areas that they were struggling with, both at school and at home. For some, it was increased focusing ability or being able to stay on task, for others, their grades improved and we were getting better reports from the teacher regarding classroom conduct and behaviour.

Our children seemed to become more helpful at home, more calm, and took more of a leadership role with the little ones. Overall, the results were extremely positive and encouraging for all people involved.

We are very happy that we decided to give Maxi Mind a try and we thank you for introducing us to such an incredible tool. We wish you lots of success with all your future students.
